

# Green Paper Guide

PLEASE DO NOT PRINT THIS DOCUMENT. IT LOOKS NICER ON YOUR SCREEN AND YOU CAN HELP SAVE A TREE.

This guide is intended to help you find the most environmental paper options available to you. We have made our best effort to represent the data correctly, however you may want to check directly with the manufacturer, as paper specifications change regularly. If you have updates or corrections, please send them to [info@designcanchange.org](mailto:info@designcanchange.org) (LAST UPDATED: FEBRUARY 10, 2007)

## DESIGN CAN CHANGE

Design Can Change is an effort to bring together the world's graphic design community to address the issues surrounding climate change. Designers craft much of the world's products/media and as such are well positioned to build awareness around this issue while encouraging more sustainable industry practices. Visit [www.designcanchange.org](http://www.designcanchange.org)
